To Begin, Let's Be Honest With Each Other Right From The Start ...

First of all, I never seek for you to be totally dependent on me in any way. Our system will get you going and put you in profit from the start and keep you in profit, but the rest will be up to you to grow your income to a level that you desire. I am here to prove that YOU can earn money. Once you read and understand this report, you will have more energy than you ever imagined possible to get into your own business and to keep growing your income indefinitely that can truly earn you a FORTUNE!

VERY IMPORTANT NOTICE!

DO NOT think that because this report is FREE that it is worthless. Contrary to popular belief I do not think that you have to pay for something to value it. If you can't even take the time to read this report I can almost guarantee you Internet business is NOT for you. BUT ...

If you are finally serious about experiencing financial success online, you are in the right place. This is where it all begins for you.

First of all, forget everything you have been taught about generating cash through the Internet. Most of what is sold these days is a bunch of bad advice and simple information that does not work for the majority of people.

This is NOT a guide filled with simple or worthless information. If you take the whole thing in, step-by-step as it is designed, you will understand the following important and proven methods that this report will show you:

- 1.** How I found the perfect (and most affordable) opportunity to use my system with and how you can join me and use it too to earn daily cash. By following this system exactly, you can be earning \$500, \$1000, \$2000 or more per month in just 60 to 90 days from today. Many have earned hundreds of dollars in their first week!

2. How I learned to overcome the competition factor so that it does not matter how many other people are marketing my program and I still succeed.

3. The simple, 100% automatic method I use to recruit 2 to 5 new, paid members per week. You can use this exact system that will deliver daily profits directly to your account.

This opportunity is not a hobby, a money game, or some little Internet program ... This is a SERIOUS business venture that will make you SERIOUS money if you follow the plan laid out for you. Let the lazy opportunity seekers waste thousands of dollars on expensive programs that promise the world for doing absolutely nothing. I think you are smarter than that right?

You would not believe how many people rush through things, sign up to every new program in pre-launch and expect thousands of dollars by the morning. I am going to put this very bluntly ... **Don't Be Stupid**, and give those people your money! They are using you as a personal ATM and that has to stop. You need to be working for YOU, not some Internet or MLM "guru" who is grooming you to be their retirement fund.

If you have tried to make money with many other opportunities or programs in the past and have not succeeded, I completely understand. Believe me, I have been there.

This FREE report will show you step-by-step what you will have to do to become a successful entrepreneur in the shortest time possible. All you have to do, just follow the plan, put little effort into your business and I guarantee you will earn your way there. The report is free but there are NO free rides to become successful, without action nothing happens.

When I gave up MLM - Mail Order Marketing, I began getting involved with marketing online in 1994 and I was not successful right off the start.

I started following what the majority of other people were doing to be successful online and I have made some money but the end results were very disappointing.

As you probably already know, the majority is almost always wrong about anything in life. If you have had a hard time building a home based business, I will bet you it is because of that reason. You are following the majority of marketers and doing exactly what they are doing and in most cases they are failing.

Why is the majority who are joining many programs and trying, not making any money?

It is hard to win at this game playing copycat. Duplication is only effective if it's unique and easy to apply. If the simple act of duplicating is what your upline does so well, then why are there so many Network Marketing failures?

The **BIGGEST** problem:

You are required to refer in order to earn money!

Most people fail in this category because over 90% of their downline is not referring and it is impossible for them to refer the entire matrix. Even though it is possible to earn thousands of dollars every month, but most Internet marketers never do.

Here is another most common problem anyone faces when trying to build or operate a Network Marketing business.

Competiton!

If you've ever tried building a team of affiliates or sponsor new members, you know what I mean.

And, the truth is, the worst competition is the competition that comes from other members promoting the same program as you. After all, if you were marketing a truly great home based business opportunity and you were the only one marketing it, it would be easy money. You really wouldn't be too concerned about other business opportunities because there's room for all of them.

Well, I finally figured out that when you come up against an avalanche of competition, the best thing to do is FLY over them.

How do I do it?

Well, I figured out that the most successful marketers were doing something that average marketers were not doing and most could not do.

The successful marketers use high quality, targeted advertising to drive huge amounts of traffic to their websites. But, what good does that do the average marketer who can't afford to pay hundreds or thousands of dollars to advertise their home based business?

And if you can't afford to do what the successful marketers are doing how will you ever compete with them?

I discovered that one of the most effective ways is to use co-op advertising. A very simple formula where members are pooling their resources to purchase highly effective advertising which helps to recruit or sponsor many others!

But, there's a big catch to co-op advertising!

You have to do it very strategically. It's not a matter of simply running an ad and sharing leads or rotating lead capture pages.

I found out that most co-op advertising is not really helping the average marketer the way it should and I found out why.

After many months of extensive research and testing, I finally hit on the formula that worked.

I discovered the secret key to successful co-op advertising. It is the key that can contribute to your success in this industry by using our entire business plan.

First of all, the most important ingredient, you need to have a proper opportunity in place with your co-op system. Not all opportunities will work the same.

You see, for some time I had been looking for a proven and reliable home based business opportunity. But, because I have many years of experience marketing these type of businesses, I had to rule out about 99% of what I saw. The reason I had to rule them out was because even though I knew I could market them successfully, I also knew that most of the people I would sponsor would not be so successful.

So I set out to try to figure out a way that not only I could succeed and those few lucky ones, but how EVERYONE I sponsored could succeed if they really wanted to. I need to help them first to start earning money so I can get paid.

Finally, after careful search and examination of many opportunities, I have joined a particular Internet business opportunity with the most powerful wealth creating system like no other I've seen in all my years of Network Marketing (offline and online). An extremely successful opportunity that has one time low entry fee and a Proven Wealth System that offers unlimited income potential.

I know to this date there is nothing like it anywhere and I GUARANTEE that you have not seen anything like it as well. There was even a **\$10,000 cash reward offered** to anyone who could document a better program, but this legitimate offer was never collected on. Nobody ever even tried. This cash reward was even increased to \$100,000 because it became obvious that there was nothing on planet Earth that could compare, much less compete!

A wealth system that has been paying out daily for over 16 years for members from over 150 countries. Once I had examined this fact, I had NO hesitation or scepticism to join what so ever.

Talking about reliability, stability and a long track of paying daily ... something you do not find these days with other opportunities!

Once I was entered into the system and got my referral link, I sent out a special letter to my warm contact list of about 50 people who wanted to earn money from home.

Can you guess what happened next?

I had few sign ups that day and best of all, I got paid the same day directly into my account. No waiting for weeks or months to get paid, I loved it. This was only the beginning for me as it can be for you as well.

Now, one thing you should know about me. I quit being an opportunity hopper some years ago because it never got me anywhere in the past.

Some people think the secret to success in Network Marketing is to hop on board every new program that comes out. These people think if a company has been around more than a few months it's saturated already!

What a joke that is!

How do you plan to develop an income that will pay you for life?

The biggest and most successful Network Marketers are in one business opportunity and they stay with it for many, many years. They even pass down their business to their children and grandchildren. The problem with Network Marketing is not that a company or opportunity gets old or saturated. It's that most people do not know if it's legitimate, will it last for years or generations to come and most of them do know how to market it! If you knew what you were doing, you could join the oldest Network Marketing opportunity in the world and get filthy rich.

Most serious opportunity seekers are not program hoppers. Please remember that, it's true. They want a reliable, easy to operate, low cost, proven home business that can start earning money IMMEDIATELY. Money that is earned will be paid out to them the same day instead of waiting weeks or months to get paid. A business opportunity that has a support, guidance and team members who are willing to be there for others to help their business grow.

Right now, there are millions of people around the world who are looking to start a home-based business. Approximately every twenty seconds someone joins a home-based business on the Internet. That is an extremely large amount of people who are turning to the Internet to provide an extra income everyday. The numbers are HUGE right now and continue to grow at astronomical rates.

The Internet will be the business marketplace of the future; of that there is no doubt. It will be generating revenues in the Trillions of dollars within a few short years according to current trends, **so you are in the right place at the right time!**

Building an Internet business is a piece of cake compared to trying to build a brick and mortar business out in the real world. If you know what you are doing, you can pretty much write your own paycheck and set everything up to run automatically. You don't even have to be working to get paid! Yes, you make money while you sleep.

Another fact is that anyone can start, build and maintain a million dollar business on the Internet with very little start up capital, usually around \$500 or less which makes this very appealing to large number of people world wide.

If you really want to build a Network Marketing business and reach a moderate income level with a wealth system that can truly make you wealthy within reasonable time ... then please read on.

When I told you earlier that I discovered the key to successful co-op advertising, one of the things I discovered was this:

You have to avoid the typical Network Marketing Mistakes!

Here's what most network marketers do online:

First, they are advertising their business opportunity. That's a big mistake.

Can you guess why?

That's right, competition from other people advertising the same or very similar opportunity.

How many times do you see the same opportunities being promoted over and over again? People drop out, new ones come in and the same process starts all over again ... you get it?

It's disgusting. It's also why you're having such a hard time sponsoring anyone or getting new sign ups. But wait, it gets even worse ... here's the second big mistake they make.

They send visitors directly to their opportunity website.

Two reasons why that's not a good idea.

Can you guess?

Well, nearly everyone has already seen your opportunity website. They already know what it is.

The second reason is that your opportunity website really isn't that good at selling. How many times have you heard people say they went to the website but they just don't understand how things work? Practically all the time, right?

Let me tell you something. If you are an old-time Network Marketer you're going to understand what I'm about to say. If you're not and you've only promoted Network Marketing opportunities online for a little while, you need to read what I'm talking about.

Here's what I'm telling you:

Network Marketing really isn't very compatible with Internet marketing. Sure, in some ways it is, but in the most important way it isn't.

What way is that? In communication!

Successful Network Marketing really is a person-to-person business just like it used to be years ago when people were having meetings in their homes or hotels.

People need other people to work with them. Explain things to them. Help them out. Motivate them. Be a friend to them. Most Internet Marketers are not very good with that.

Now you may be the Network Marketing King or Queen, but what about the people you're trying to sponsor?

Most of them aren't, right?

Most of them don't have a clue what to do or what this is all about. And if you lack experience in Network Marketing and sign up under one of these big hitters, guess what? You're going to get left out in the cold, because quite honestly, most of them don't care about you. But, I do; as you will soon learn.

But, I digress ... Again, sending your prospects to a company website first only serves to confuse and alienate them.

Even if you try to contact them and communicate with them afterwards they have somewhat already made up their mind that they probably aren't interested. Why?

Because your opportunity or company website seemed too complicated or it had too much information.

So now, your good prospect is a little less good of a prospect because they're already forming negative opinions about your business.

You might already know what a lot of Network Marketers say?

They say "good". They just want to "sort people out". If someone gets it, great. If they don't, too bad. Next!

Isn't that what you've heard if you have been around Network Marketing for a while?

Practically every Network Marketing company teaches this. Some will, some won't, who cares, who's next?

That is their mantra. But, what if there's a better way?

What if you started treating every prospect as a valued human being whether they join your program or not? Just because they are valued.

Because they are God's children and what you do to others good or bad eventually comes back to you. Right?

I personally try to follow this philosophy and I am literally stealing prospects away from the so-called big hitters who do not care about the small guy!

People know when a person sincerely cares about their success. So, if you want to build a strong Network Marketing team, I suggest you start focusing on the success of your team, not on your own success.

A well-known self made millionaire, Z. Ziglar says "You can have everything in life you want, if you will just help other people get what they want".

He also said: "If you go looking for a friend, you're going to find they are very scarce. If you go out to be a friend, you will find them everywhere."

This is exactly why I am taking the time to write this report. I want to explain as much as possible how I am sponsoring 2 to 5 new paid members per week into my program so you can fully understand and make an educated decision whether to join me or not.

I'm not simply sending you to my opportunity or company website and hope you are interested enough to sign up and then never hear from me again.

You see, not only do I value you as a potential team member, I truly care about what is going to happen to you AFTER you join my team and my organization.

That is why I have created this system and also why I supply my full contact information at the end of this report so you can email or call me directly.

As a team member you will be able to use this exact system I'm about to show you AND you will have my personal on going help and support all along the way.

I will not let you fail. And if you use my system you literally can't fail. You see, if my system only worked for me, what good would that be, right?

It will absolutely work for you too. It has to work!

It's as if you saw me drop a cement brick into the water and watched how it sank to the bottom.

If you asked me if that would work for you too ... guess what? I am absolutely sure it would if you did the exact same thing!

It is as simple as that!

It is time to get to core of the system and explain how it all works and how it will work for you as well. All you have to do is join me (just like throwing the cement brick in the water).

First, I generate leads based on what I believe people really want.

What is it that people really want?

First of all ... they want MONEY and more money!

Second of all ... they want a sure fire, simple, affordable and do-able, can't-miss method to make all the money they want.

People don't just want the amount of money they need. They want the amount of money they want! Why? So they can buy things they want, travel, retire and most want to have the freedom from 9 to 5 jobs. Freedom from the stress of living paycheck to paycheck. Freedom to come and go as they please. Freedom to live where and how they want.

As you can see, people don't dream about their life of promoting their Network Marketing opportunity or selling products. People dream of bigger things than that. You are really insulting people when you try to get them to buy into your opportunity or company's

product line being the answer to their dreams. This is not what they want!

But ...

The money they can EARN with your opportunity may very well be one of their dreams. Or at least the money they can make with your opportunity, they can then afford to pursue their real dreams.

Please learn this:

You have to respect people's individuality and their personal dreams. Don't try to turn them into something they are not.

That is a pure turn off for anyone who actually thinks for themselves. Be loyal and have desire to help yourself and those above and below you to build a large, sustainable and successful business. Care about people and their dreams!

So, again, I generate leads based on people's wants!

For example, you probably saw an ad that said something about \$5, \$50 or \$150 one time entry fee that can earn over \$1,000,000 in profits?

Or

How I get 2 to 5 new paid members per week into my program and you wanted that information, didn't you?

Why? Because you know that if you could sponsor 2 to 5 new, paid members per week, you would be well on your way to making a ton of MONEY with any opportunity.

So, what am I saying?

I'm saying don't promote your company or its products. Promote an answer to what your prospect really wants. They may need what your opportunity or company is selling, but sell that to them after you've given them what they want. See what I mean?

So, that's the first part of my system. I attract people who are interested in learning how \$5, \$50 or \$150 one time entry fee can earn over \$1,000,000 in profits.

Second part, to arouse their interest even more I also show them how I get 2 to 5 new paid members per week into my program. Anyone can do exactly same thing and have same results. We have a plan that works even without sponsoring and anyone within time still can reach a moderate level of being successful. Many join just because of that, as most do not know how to promote or sponsor others.

Now, here's the final part of my system:

Now that I have people interested, they land on my lead capture page and fill out that little form on there just like you did, right?

That's simple enough. But here's the very simple but extremely powerful twist and one of the key secret ingredients to my system.

I get my prospects to read this report first before they do anything else. I don't want them to just go to my opportunity website directly. Why? Because they might not fully understand the content what's in that website and how everything works. Some websites only talk about products and the potential to make a lot of money.

What's wrong with that you ask?

People who are seeking how to make money, most don't care about products or potential.

They want to know **EXACTLY**, complete step-by-step guide how they are going to make money even if they are not good with marketing.

They want money and a simple, automatic way to get it. They want some one who will be there for them to work with.

You already know that the majority of people have a really hard time promoting and sponsoring. The average Network Marketer only recruits 3 people in their career and that's a proven fact!

I've literally taken away the most difficult aspect of Network Marketing so that anyone can sponsor 2 to 5 new, paid members per week. And quite honestly, the club's entire wealth system and F5M-MC Gold Booster Pay Plan with Co-op advertising is the main reason this system works so well.

You could be earning over \$500, \$1000, \$2000 or more per month in just 60 to 90 days from today and get paid on a daily basis to your account. No waiting here for weeks or months to get your money. Many members are earning hundreds of dollars within their 1st week!

Now, please pay very careful attention here. You really need to understand how this works to fully appreciate the power of what we are doing. It's a **TWO-PART** system that will make you money. We have a strategic Gold Booster Co-op advertising system that will promote your business to get you started. But that's not all, we will even **PAY YOU** to advertise your business through our highly targeted advertising system.

Below are the exact steps that must be taken to become involved and to start generating cash for yourself that can lead you to financial freedom if you do not quit!

PART 1 of our system:

The Wealth System That Generates Income For Life!

As you know there are thousands of different Network Marketing opportunities out there, some are good and some are scams. Many new ones are born each day and the competition is great. One thing we will do, we will NOT work with competition and offer another Network opportunity, rather we use a proven cash generating wealth system within our financial club:

F5M-Millionaires-Club!

- **A club where members help and support each other on their journey to prosperity.**
- **Where members with top membership levels help those who start out with lower membership by getting others placed under them so they can get to the top level as well.**
- **When top level membership is reached, the Wealth System starts generating cash that is paid out on a daily basis.**
- **Those who have helped lower level members to reach the top are greatly rewarded for life.**
- **A 16 year old proven Wealth System that within time can earn well over \$1,000,000 in profits starting just with 3 personally introduced members!**

F5M-Millionaires-Club is something so different it can't be missed! But don't take my word for it, let me show and PROVE it to you.

Our "high in demand" proven approach puts Real Cash in your pocket!

- **Let me PROVE to you that even if you are the last member to join, you can still make money. As a matter of fact even if you are the FIRST, in the MIDDLE or LAST one, you will be able to profit!**
- **Let me PROVE to you that we are doing something so different that YOU can't help but to succeed!**
- **Let me PROVE to you that YOU can make SERIOUS MONEY with our unique Forced Team Support System that is unknown to many marketers. It is helping many members like never before.**
- **Let me PROVE to you that we are not an ordinary club or a downline club but a TRUE Wealth Producing Club!**

Your Journey Starts With This Very FIRST Step:

You must join **F5M-Millionaires-Club** to be placed into the club's wealth system where you can start generating income for yourself. Club offers 3 levels of membership: Gold, Silver and Bronze. Select the membership level that applies to you or the level you can afford to join.

It is suggested to join at the Gold or Silver level as this will permit you to earn immediate profits paid out daily to your account from our 'F5M-Wealth System'. Another important benefit is that you will be helping those current members who are in lower levels, which you are going to be greatly rewarded when they reach the Gold level position.

Club's Gold Membership Level: This is the highest level that can be reached within our club's wealth system. Joining at this level enters you into 2 cash generating ventures: **Gold Booster Pay Plan with Co-op Advertising** where your 1st two levels are automatically filled providing you with some instant cash. The second venture is **Wealth Team International Association** (WTIA) where the wealth has been earned from, being earned and will be earned by future members which can be YOU! WTIA is where all other members from lower levels want to end up. Joining Gold membership level you do not have to wait to reach the top, You Will Be There Already!

Club's Silver Membership Level: This is our in between feeding position where you can work your way up to Gold by your own efforts, from F5M-MC Gold Booster Pay Plan and its co-op advertising or from the help of those who are coming into Gold. Here you are entered into two cash generating ventures: **Gold Booster Pay Plan** and **Fortune5Minutes!**

Please note: If Gold level membership is not suitable for you at this time, this is our 2nd best level to join and start generating some cash before reaching the Gold level.

Club's Bronze Membership Level: This is our lowest membership level. You simply start here and work your way up to Silver and then Gold level through the channels of help from Gold and Silver level members plus the F5M-MC Gold Booster Pay Plan with co-op advertising. Your own advertising efforts can really speed up your advancement into higher levels even without spending any money.

Special Bronze Level Bonus: If you join F5M-Millionaires Club at the Bronze Level and when you introduce **6** other Bronze members into F5M-MC, you will be automatically entered into Gold Booster Pay Plan with Co-op Advertising without any cost to you. As soon as you enter Gold Booster Pay Plan, you will have the first two levels automatically filled providing you some instant cash.

Also you will have access to F5M-MC marketing guide that explains how to effectively promote or advertise your new business. It is the same marketing system that is producing 2 to 5 new paid sign ups into our club for many of our current members.

PART 2 of our system:

F5M-MC Gold Booster Pay Plan with Co-Op Advertising!

IMPORTANT MESSAGE: You must become a paid member of the 'F5M-Millionaires Club' FIRST before you can have access to the Gold Booster. This ONLY available to F5M-MC members!

The most important development for creating Gold Booster Pay Plan is to help many members who are in F5M-Millionaires Club at the lower levels (Bronze and Silver) to generate immediate cash that will pay their way into higher membership levels and into the main Wealth System (WTIA) where fortunes are made without them spending any more of their own money.

Any F5M-MC member who joins the Gold Booster Pay Plan can receive help from their upline sponsor, help from re-purchased positions, spill over help from above and even from below, help from others buying extras positions, others joining them from their own advertising efforts and those who will come from Gold Booster Co-op advertising. This all can add to a quick income that will grow daily and is paid out on a daily basis as well.

Please check our F5M-MC Gold Booster Pay Plan with Co-op Advertising. This is the Revolutionary Breakthrough That Ends NOT Earning Money On The Net and it is only available to F5M-Millionaires Club members!
